

Tony's Introduction:

It's my pleasure today to introduce to you our first speaker Mr. Tony Chatman. Instead of the normal speaker introduction which would be little more than a reading to you all of Tony's accomplishments and accolades, I would instead like to prepare you for the premiere presentation that you are about to encounter. Tony is a popular keynote speaker, a business coach and an entrepreneur who believes that we change our lives by changing how we think. He calls himself the Inside Man because he believes that if you fix the inside of the problem, the rest will take care of itself. Ladies and gentlemen, please join me in welcoming our guest....Tony Chatman
